PROFILE

Frontend Developer with 1 year of experience in JavaScript, React.js and Nextjs, specializing in healthcare technology and e-commerce sectors. Seeking to leverage my expertise in building responsive and user-friendly interfaces to contribute to innovative projects in a dynamic team environment.

EXPERIENCE

FRONTEND DEVELOPER, SPIDER ACADEMY

Freelance Project Tanta, Egypt — 2025-Present

Spider Academy is an educational platform designed to empower users with skills in cybersecurity and programming through well-structured courses and interactive learning content. The frontend was built using **Next.js** to ensure optimal performance and SEO benefits, while course data and content are dynamically fetched via **RESTful APIs**.

Key Features:

- Responsive UI for seamless experience across all devices.
- Dynamic course listing with category filtering.
- Integration with REST APIs to fetch and manage course data.
- Server-Side Rendering (SSR) with Next.js for faster page loads and better SEO
- View Live => <https://spider-academy.vercel.app/>

FRONTEND DEVELOPER, ECOSYST

Freelance Project Tanta, Egypt — 2025-Present

- Developed a fully responsive personal portfolio website using **Next.js** and **Tailwind CSS**.
- Showcases personal projects, technical skills, and contact information in a modern UI.
- Implemented SEO best practices including dynamic meta tags and Open Graph support.
- Integrated **MDX** for a blog section with support for code highlighting and markdown content.
- Focused on performance optimization and cross-device compatibility.
- View Live => <https://ecosystem-two.vercel.app/>

FRONTEND DEVELOPER, SPIDER CTF

Freelance Project Tanta, Egypt — 2025-Present

- Developed and optimized the user interface for the CTF competition platform using React.js / HTML, CSS, JavaScript.
- Designed and implemented a feature for creating and managing competitions, allowing admins to set challenges dynamically.
- Enhanced UI/UX by designing interactive dashboards and intuitive navigation.
- Integrated APIs to display real-time challenges, scores, and user progress.
- Improved website performance and security best practices.
- View Live => <https://spider-ctf.vercel.app/>

FRONTEND DEVELOPER, REACT E-COMMERCE WEBSITE

Freelance Project Tanta, Egypt — 2024-Present

- Developed a fully functional e-commerce platform using React.js
- Admin Panel for managing products, orders, and users.
- Ensuring high performance, responsiveness, and user-friendly interfaces.
- Collaborated with designers, and back-end developers gather requirements and deliver high-quality solutions.
- Implemented best practices in code quality, testing, and version control.
- Convert Figma, or Adobe XD to a web application.
- View Live => <https://inside-home.vercel.app/>

FRONTEND DEVELOPER, CHAT APP

Personal Project Tanta, Egypt — 2024-Present

- Created a real-time chat application using React and Firebase Firestore .
- Integrated features like user authentication and profile management.
- Implemented multimedia sharing (images) with real-time updates.
- Focused on building an intuitive and responsive user interface.

FRONTEND DEVELOPER, REACT E-COMMERCE WEBSITE

Personal Project Tanta, Egypt — 2023-present

- Developed a fully functional e-commerce platform using React for the frontend and Firebase for the backend.
- Designed features such as product search, user authentication,
- Ensured mobile responsiveness and optimized the site for faster load times.
